1.3.1 Financial Capabilities	<p>(i) It is necessary that the firm can withstand the Cash Flow that the contract will require until payment received from Employer. Liquidity therefore becomes an important consideration.</p> <p>(ii) This can be seen from the balance sheets and/or from the banking reference. Net current assets {(Current assets + loans & advances) – (current liabilities + provision)} or documents including banking reference, should show that the Bidder has access to or has available liquid assets, lines of credit and other financial means to meet cash flow INR 190.00 million / INR 19 Crore for this contract, net of Bidder's commitments for other Contracts. 	<p>Otherwise the aggregate of the Net Current Assets and submitted Banking references will be considered for working out the Liquidity.</p> <p>Liquidity of INR 190.00 million available: Pass</p> <p>Liquidity of INR 190.00 million not available: Fail</p> <p>In case of a Joint Venture/Consortium, the above evaluation will be done in totality after applying pro-rata percentage participation of each member and not as individual member. For e.g., if there are three members in a Joint Venture/Consortium with pro-rata percentage participation of 'A%', 'B%' and 'C%' and the calculated liquidity of the respective members are 'X', 'Y' and 'Z', then the evaluation for the above criteria will be based on the pro-rata percentage applied algebraic aggregate i.e. 'AX+BY+CZ'.</p>					

1.3.2 Minimum Annual Turnover	<p>(i) The minimum requirements to 'Pass' this criteria is that the Average Annual Turnover for the last five financial years for Construction works only (in terms of rupee equivalent adjusted to last date of the financial year that ended on or before 31.03.2024. by assuming 5% escalation for Indian Rupee and 2% for foreign currency per year) shall not be less than INR 1145.00 million / INR 114 Crore..</p> <p>(ii) The value of annual turnover shall be calculated as total certified payments received for Contracts in progress and/or completed, within last Five Financial years divided by Five years.</p> <p>(iii) The financial year as applicable in the country of origin of the bidders would be considered. The 'last financial year' will be the latest financial year that ended on or before 31.03.2024.</p> <p>(iv) In case of a Joint Venture/Consortium, the above evaluation will be done in totality after applying pro-rata percentage participation of each member and not as individual member. <u>Methodology for Working out the Available Bid Capacity</u>						
The Bidders will be qualified only if their available bid capacity is more than INR 760.00 million. Available bid capacity will be calculated as under:Available Bid Capacity =2AN-B						
Where,						
A = Maximum value of Construction works in any one (1) year during the last five (5) years as certified by Chartered Accountant and as contained in the corresponding Audited Annual account Statement/Book of accounts of the concerned financial year to be considered and will be updated to 31.03.2024 price level assuming 5% inflation for Indian Rupees every year and 2% for foreign currency portions per year. (Refer Form : FIN 3.2)						
N = No. of years in which supply and commissioning is to be made (N = 1 year in this case)						
B = Value [at price level as on the twenty-eight days prior to ‘date for Bid submission’ (refer Forms of Bid -Form Fin 3.4)] of existing commitments and on-going works (works in hand) to be completed during next “N” years starting from the twenty-eight days prior to ‘date for Bid submission’.						
Note:						
In case of a Joint Venture/Consortium, the above formula will be applied to each member to the extent of his proposed percentage (%) participation in the execution of the work. The Bid Capacity of the Joint Venture/Consortium will be the sum total of the Bid Capacity of each member of the Joint Venture/Consortium as calculated above.						
Value of ‘A’:						
The maximum value of Construction works in any one year during last five (5) years (‘A’ in the above formula) shall be the maximum turnover in any one (1) financial year during the last five (5) financial years. Financial year as applicable in the country of origin of the bidders would be considered. The turnover of Construction works to be furnished in response to Section-IV A: Bidding Forms-Bidder’s Qualification Form: Form FIN-3.2 shall be considered for evaluating the value ‘A’ in above formula and the details furnished by the Bidder shall be supported with audited copies, duly certified by Independent chartered accountant/CPA, indicating Annual turnover of Construction works only.						
Value of ‘B’:						
The value of existing commitments and ongoing works (works in hand) (‘B’ in the above formula) as furnished in response to Section-IV A: Bidding Forms-Bidder’s Qualification Form: Form FIN-3.4 and FIN-3.5 shall be considered. The ‘twenty-eight days prior to date for Bid submission’ means for e.g: Say, if ‘date for Bid submission’ is 15.01.2020, then ‘twenty-eight days prior to date for Bid submission’ will be 18.12.2019 and next 3 years period will be period upto 17.12.2022.

The JV shall not subcontract more than 30 percent of the contract price, excluding Provisional Sums, to foreign firms. JVs between foreign and national firms will not be eligible for domestic preference.
- b) Bidders applying for such preference shall be asked to provide, as part of the data for qualification, such information, including details of ownership, as shall be required to determine whether, according to the classification established by the Employer and accepted by AFD, a particular Bidder or group of Bidders qualifies for a domestic preference;
- c) After Bids have been received and reviewed by the Employer, responsive Bids shall be classified into the following groups:
 - (i) Group A: Bids offered by domestic Bidders eligible for the preference;
 - (ii) Group B: Bids offered by other Bidders.

3.2.2 All evaluated Bids in each group shall, as a first evaluation step, be compared to determine the lowest Bid, and the lowest evaluated Bids in each group shall be further compared with each other. If, as a result of this comparison, a Bid from Group A is the lowest, it shall be selected for the award. If a Bid from Group B is the lowest, as a second evaluation step, all Bids from Group B shall then be further compared with the lowest evaluated Bid from Group A. For the purpose of this further comparison only, an amount equal to 7.5% (seven and one-half per cent) of the respective Bid price corrected for arithmetical errors, including unconditional discounts but excluding Provisional Sums and the cost of day works, if any, shall be added to the evaluated price offered in each Bid from Group B. If the Bid from Group A is the lowest, it shall be selected for award. If not, the lowest evaluated Bid from Group B based on the first evaluation step shall be selected.
