A3. Additional Requirements:

The Tenderer shall also have to comply following requirements to qualify

(a) The tenderer shall submit an organisation chart together with clear description of the responsibilities of each member within the overall work programme.

(b) The DDC team with total and relevant experience details can be referred at Clause 5.2 of Scope of Work. The manpower details to be submitted as per the format given in Appendix 8 and Appendix 28 of FoT.

B. Financial Standing: The tenderers will be qualified only if they have minimum financial capabilities as below:

(i) **T1 – Liquidity:** It is necessary that the firm can withstand cash flow that the contract will require until payments received from the Employer. Liquidity therefore becomes an important consideration.

This shall be seen from the balance sheets of the last audited year and/or from the banking reference. Net current assets and/or documents including banking reference (as per proforma given in Annexure – 8 of ITT), should show that the applicant has access to or has available liquid assets, lines of credit and other financial means to meet cash flow of **INR 0.87 Crores** for this contract, net of applicant's commitments for other Contracts. Banking reference should contain in clear terms the amount that bank will be in a position to lend for this work to the applicant/member of the Joint Venture/Consortium. In case the Net Current Assets (as seen from the Balance Sheets) are negative, only the Banking references will be considered. Otherwise, the aggregate of the Net Current Assets and submitted Banking references will be considered for working out the Liquidity.

The banking reference should be from a Scheduled Bank in India or (in case of foreign parties) from an international bank of repute acceptable to GMRC as per proforma given in Annexure- 8 of ITT and it should not be more than 3 months old as on date of submission of bids.

In Case of JV/Consortium- Requirement of liquidity is to be distributed between members as per their percentage participation and every member should satisfy the minimum requirement.

Example: Let member-1 has percentage participation=M and member-2 has percentage participation=N. If minimum liquidity required is 'W' then liquidity of member-1 $\geq W\frac{M}{100}$

And liquidity of member-2 $\geq W\frac{N.}{100}$

(ii) **T2 - Net Worth:** Net Worth of tenderer during last audited financial year should be **≥ INR 1.16 Crores.** In Case of JV/Consortium- Net worth will be based on the percentage participation of each Member.

Example: Let Member-1 has percentage participation = M and Member-2 has =N. Let the Net worth of Member-1 is A and that of Member-2 is B, then the Net worth of JV/Consortium will be

$$= \frac{AM+BN}{100}$$

(iii) **T3 - Annual Turnover:** The average annual turnover from consultancy works of last five financial years should be **≥ Rs.3.49** Crores.

The average annual turnover of JV/Consortium will be based on percentage participation of each member

Example: Let Member-1 has percentage participation = M and Member - 2 has =N. Let the average annual turnover of Member-1 is 'A' and that of Member-2 is 'B', then the average annual turnover of JV/Consortium will be

$$= \frac{AM+BN}{100}$$

(iv) T4-Bid Capacity Criteria:

Bid Capacity: The tenderers will be qualified only if their available bid capacity is more than the approximate cost of work as per NIT. Available bid capacity will be calculated based on the following formula:

Available Bid Capacity = 2*A*N – B

Where,
A = Maximum of the value of consultancy works executed in any one year during the last five financial years (updated to last day of the month previous to the month of tender submission price level assuming 10% inflation for Indian Rupees every year and 2% for foreign currency portions per year, on compounding basis)

N = No. of years prescribed for completion of the work

B = Value of existing commitments (as on last day of the month previous to the month of tender submission) and on-going consultancy works to be completed during period of 48 months w.e.f. from the first day of the month of tender submission.

<u>**Example for calculation of bid capacity in case of JV / Consortium / Group**</u>

Suppose there are **'P'** and **'Q'** members of the JV / Consortium / Group with their participation in the JV / Consortium / Group as 70% and 30% respectively and available bid capacity of these members as per above formula individually works out **'X'** and **'Y'** respectively, then Bid Capacity of JV / Consortium / Group shall be as under:

Bid Capacity of the JV / Consortium / Group = 0.7X + 0.3Y

Notes:

a) Financial data for latest last five audited financial years has to be submitted by the tenderer in Appendix-18 of FOT along with audited balance sheets. The financial data in the prescribed format shall be certified by Chartered Accountant with his stamp and signature. In case audited balance sheet of the last financial year is not made available by the bidder, he has to submit an affidavit certifying that 'the balance sheet has actually not been audited so far'. In such a case the financial data of previous '4' audited financial years will be taken into consideration for evaluation. If audited balance sheet of any year other than the last year is not submitted, the tender will be considered as non-responsive.

b) However, the tenderer including all substantial members of JV / Consortium should have been incorporated more than three years earlier from the last day of the previous month of tender submission end date. In this case, for such tenderer, the average annual turnover shall be arrived considering 'nil' turnover for the financial year(s) for which tenderer was not able to submit audited balance sheet on account of non-incorporation of tenderer. Such data shall be divided by 5 to work out the average annual turnover. In case balance sheet of the last year has not been audited so far, then data shall be divided by 4 to work out the average annual turnover.

c) Where a work is undertaken by a group, only that portion of the contract which is undertaken by the concerned applicant/member should be indicated and the remaining done by the other members of the group be excluded. This is to be substantiated with documentary evidence.

d) Financial data for latest last five financial years has to be submitted by the tenderer in Appendix -15 of FOT along with audited financial statements. The financial data in the prescribed format shall be certified by the Chartered Accountant with his stamp and signature in original with membership number and firm registration number.

e) Value of existing commitments for on-going consultancy works during period of **48 months** w.e.f. from the first day of the month of tender submission has to be submitted by the tenderer in Appendix – 16 of FOT. These data shall `be certified by the Chartered Accountant with his stamp and signature in original with membership number and firm registration number.

f) In the case of a group, the above formula will be applied to each member to the extent of his proposed participation in the execution of the work. If the proposed % participation is not mentioned then equal participation will be assumed.

g) Detailed technical evaluation on QCBS method shall be carried out in accordance of Para 1.1.3.4, only for those bidders who have qualified in Minimum Eligibility Criteria as per para 1.1.3.2 above.

1.1.3.3 Consultant shall be selected under QCBS (Quality cum Cost Based Selection) process with 70% and 30% weights for Technical Proposal and Financial Proposal respectively. At this stage (i.e QCBS stage), Proposal shall be rejected if it does not respond to important aspects of the Tender Document, and particularly the Employers Requirement or if it fails to achieve the minimum technical score of 70%. Financial Proposal shall be opened only for bidders whose technical proposal is considered technically acceptable (i.e who have scored minimum technical score of 70%) The tender submission of tenderers, who do not qualify the minimum eligibility criteria stipulated in the clauses 1.1.3.2 as above, shall not be considered for further evaluation and therefore rejected. If the tenderer fails to meet the eligibility and qualification criteria, then further scrutiny of other technical parameters will not be done and Financial Proposals of such Tenderers shall not be opened. The mere fact that the tenderer is qualified as mentioned in sub clause 1.1.3.2 shall not imply that his bid shall automatically be accepted. The same should contain all technical data as required for consideration of tender prescribed in the Clause 1.1.3.4. Technical proposals meeting the Technical requirement and found substantially responsive only will be qualified for opening of their Financial Proposal.

.

The proposed weightages for quality and cost shall be specified in the RFP. Proposal with the lowest cost may be given a financial score of 100 (Hundred) and other proposals given financial scores that are inversely proportional to their prices w.r.t. the lowest offer. Similarly, proposal with the highest technical marks (as allotted by the evaluation committee) shall be given a score of 100 (Hundred) and other proposals be given technical score that are proportional to their marks w.r.t. the highest technical marks. The total score, both technical and financial, shall be obtained by weighing the quality and cost scores and adding them up. On the basis of the combined weighted score for quality and cost, the consultant shall be ranked in terms of the total score obtained. The proposal obtaining the highest total combined score in evaluation of quality and cost will be ranked as H-1 followed by the proposals securing lesser marks as H-2, H-3 etc. The proposal securing the highest combined marks and ranked H-1 will be invited for negotiations, if required and shall be recommended for award of contract. In the event two or more bids have the same score in final ranking, the bid with highest technical score will be H-1. In such a case, an Evaluated Bid Score (B) will be calculated for each responsive Bid using the following formula, which permits a comprehensive assessment of the Bid price and the technical merits of each Bid:

$$B = \frac{C_{low}}{C} X + \frac{T}{T_{high}} (1 - X)$$

where,
C = Evaluated Bid Price
C_{low} = the lowest of all Evaluated Bid Prices among responsive Bids
T = the total Technical Score awarded to the Bid
T_{high} = the Technical Score achieved by the Bid that was scored best among all responsive Bids
X = weightage for the Price as specified in the BDS

The Bid with the best evaluated Bid Score (B) among responsive Bids shall be the Most Advantageous Bid

As an example, the following procedure can be followed. In a particular case of selection of consultant, it was decided to have minimum qualifying marks for technical qualifications as 70 (Seventy) and the weightage of the technical bids and financial bids was kept as 70: 30 (Seventy: Thirty). In response to the RfP, three proposals, A, B & C were received. The technical evaluation committee awarded the following marks as under:
:

A: 75 Marks
B: 80 Marks
C: 90 Marks

The minimum qualifying marks were 70 (Seventy) thus, all the three proposals were found technically suitable. Using the formula T/Thigh, the following technical points are awarded by the evaluation committee:

A: 75/90 = 83 points
B: 80/90 = 89 points
C: 90/90 = 100 points

The financial proposals of each qualified consultant were opened after notifying the date and time of bid opening to the successful participants. The price evaluation committee examined the financial proposals and evaluated the quoted prices as under:

A: Rs.120.
B: Rs.100.
C: Rs.110.

Using the formula Clow/C, the committee gave them the following points for financial proposals:

A: 100/120 = 83 points
B: 100/100 = 100 points
C: 100/110 = 91 points

In the combined evaluation, thereafter, the evaluation committee calculated the combined technical and financial score as under:

Proposal A: 83x0.30 + 83x0.70 = 83 points.
Proposal B: 100x0.30 + 89x0.70 = 92.3 points
Proposal C: 91x0.30 + 100x0.70 = 97.3 points.

The three proposals in the combined technical and financial evaluation were ranked as under:

Proposal A: 83 points: H-3
Proposal B: 92.3 points: H-2
Proposal C: 97.3 points: H-1

Proposal C at the evaluated cost of Rs.110 (Rupees One hundred and ten) was, therefore, declared as winner and recommended for negotiations/approval, to the competent authority"
